## About Antonio Butler

I am a student attending the University of Tennessee Knoxville with goals to obtain my Bachelor of Business Administration in Supply Chain Management with a Dual Marketing concentration, and minor in Leadership Studies. Through obtaining my degree I have plans to attend law school and graduate school to enter higher education policy work.

During my spare time I enjoy writing and creating my own music and poetry. I enjoy spending time with my family, friends, and reading literature dealing with diversity and inclusion and educational policy, specifically in the African-American community.

Through hard work and dedication, I am a part of multiple organizations on campus to help enhance the diversity and inclusion of students and faculty at The University of Tennessee-Knoxville. I am also an active leader, learner, and listener. I enjoy listening to past alumni experiences, to help better enhance future student experiences through campus programming, positive campus dialogue, and innovative thinking. As a senior at The University of Tennessee, I plan to continue to make positive social change on campus to better the lives of future Volunteers.
